## Document Preparation

### OpenOffice Writer, Spreadsheet, and Presentation Software Suite

[OpenOffice.org](#) free download (Windows/Mac/Linux) for Microsoft Office compatible software suite.

### Technical Document Preparation with LaTeX

The [teTeX](#) package and [Emacs](#) editor are recommended for Linux systems, such as [Fedora](#), the [MikTeX](#) package and [WinEdt](#) editor are recommended for Windows, and the [OzTeX](#) package is recommended for Mac. Many guides to LaTeX document preparation and samples are available:

[AMS TeX Resources](#)

[LaTeX Project](#)

[University of Cambridge - Engineering Department](#)

[University of Oxford - Mathematical Institute](#)

[Wikipedia LaTeX Guide](#)
